Advanced Medicine

Anderson is proud to bring the highest level of care to residents of this region by offering the area's only Breast Imaging Center of Excellence, the area's only accredited Chest Pain Center, the area's only Electrophysiology Lab for ablation procedures, and the most advanced radiation treatment in the state. The TomoTherapy system at Anderson Regional Cancer Center rivals systems used at some of the largest cancer centers in the world.

We offer:

- Many employment opportunities
- Non-employed opportunities at affiliated multi-specialty practices
- Attractive base salary plus productivity incentives
- Practice includes Outpatient and Inpatient opportunities, as well as Outpatient only
- Strong support from administration and medical staff
- Coverage of professional malpractice insurance, including tail coverage
- Coverage of relocation expenses

Your passion, drive and commitment should be rewarded.
