

OUTPATIENT REHABILITATION

Lymphedema Management

Anderson Outpatient Rehabilitation offers comprehensive treatment for lymphedema that occurs during treatment for various types of cancer. The treatment is provided by the area's only specially certified lymphedema therapists and includes European methods of manual lymphatic drainage massage, therapeutic exercises, medical compression bandaging and compression sleeves.

Our highly trained therapists also offer therapeutic strategies for energy conservation, stress reduction, coping with pain, and a wide variety of Oncology Therapy Services for those who are recovering.

Other Recovery Services Offered

Post Mastectomy
Post Lumpectomy
Post Radiation Therapy
Post Pelvic Surgery
Post Groin Dissection
Post Thyroidectomy
Congenital Lymphedema

Call 601.553.6704 for more information.
